^A The Aberdeen Global – Dividend Europe Fund was launched on 26 July 2010 to facilitate a transfer of unitholders from the Credit Suisse Equity Fund (Lux) Dividend Europe Aberdeen (launched on 23 June 2006) to the Aberdeen Global SICAV. Prior to July 2010, the Fund's historic track record is that of the Credit Suisse Equity Fund (Lux) Dividend Europe Aberdeen, with Aberdeen's Pan-European equity team managing the fund since July 2009.

All return data includes investment management fees, performance fees, and operational charges and expenses, and assumes the reinvestment of all distributions. The returns provided do not reflect the initial sales charge and, if included, the performance shown would be lower.

Past performance is not a guide to future results.

Aberdeen Global - European Equity Dividend Fund

Important information

Risk factors you should consider before investing:

- The value of shares and the income from them can go down as well as up and you may get back less than the amount invested.
- Investing globally can bring additional returns and diversify risk. However, currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.

Other important information:

Aberdeen Global is a Luxembourg-domiciled UCITS fund, incorporated as a Société Anonyme and organized as a Société d'Investissement à Capital Variable (a "SICAV"). Please note the risk analytics figures are calculated on gross returns whereas the performance figures are based on net asset value (NAV) returns. In addition, the risk analytics figures lag the performance figures by one month. It should be noted that the figures provided regarding risk would be adjusted if fund fees and expenses were included.

Standard deviation measures historical volatility. Beta is a measure of the volatility of a portfolio in comparison to a benchmark index. Sharpe ratio measures risk-adjusted performance. Tracking error measures the divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark. Information ratio is a ratio of portfolio returns above the returns of a benchmark to the volatility of those returns. R-squared is a statistical measurement that determines the proportion of a fund's return that can be explained by variations in the market, as measured by a benchmark index.

Source: Ex-post Ongoing charges Aberdeen Asset Managers Limited as at 30 September 2016.

^aThe Historic Yield reflects distributions declared over the past twelve months as a percentage of the mid-market share price, as at the month-end date. It does not include any initial charges and investors may be subject to tax on their distributions.

^cThe Gross Historic Yield reflects the Historic Yield, inflated by adding back the latest Ongoing Charges and expenses deducted by the fund. Ongoing Charges and expenses are deducted before distributions are declared, therefore reducing the yield from the gross figure shown. This does not include any preliminary charge and investors may be subject to tax on their distributions.

^bThe Ongoing Charge Figure (OCF), is the overall cost shown as a percentage of the value of the assets of the Funds. It is made up of the Annual Management Charge (AMC) of 1.50% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the Funds. The Ongoing Charges figure can help you compare the annual operating expenses of different Funds.
