

Aberdeen Standard SICAV I - Emerging Markets Infrastructure Equity Fund

A Acc USD

Performance Data and Analytics to 28 February 2019

Summary investment objective

To achieve a combination of income and growth by investing mostly in shares of companies involved in infrastructure-related industries based and/or carrying out much of their business in emerging markets. These include energy and power, engineering and construction, electrical equipment, environmental services, materials, real estate development, resources, transportation and utilities, or in companies that provide funding for such activities. Emerging markets are typically countries that are still developing their economies.

Aberdeen Standard SICAV I - Emerging Markets Infrastructure Equity Fund

Important information

Risk factors you should consider before investing:

- The value of shares and the income from them can go down as well as up and you may get back less than the amount invested.
- Investing globally can bring additional returns and diversify risk. However, currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.
- Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. This may mean your money is at greater risk.
- This Fund invests in a specialist sector and it will not perform in line with funds that have a broader investment policy.
- The Fund may invest directly or indirectly in Chinese domestic securities markets via various channels, including the Shanghai-Hong Kong Stock Connect programme or through any similar acceptable securities trading and clearing linked in relation to which the Fund may suffer difficulties or delays in proving it owns the China shares or enforcing its rights given that the legal and regulatory rules in each of Shanghai and Hong Kong are very different. Use of these channels therefore bring additional risks as further described in the Fund's Prospectus under "Investing in China".
