

Aberdeen Standard SICAV I - Diversified Income Fund

A MInc Hedged SGD

Performance data and analytics to 31 December 2021

Objective

The Fund aims to achieve a combination of income and some growth by actively managing allocations in investments in a broad range of global assets.

The Fund aims to exceed the return on cash deposits (as currently measured by a benchmark of US Secured Overnight Financing Rate ("SOFR")) by 5% per annum over rolling five year periods (before charges). There is however no certainty or promise that the Fund will achieve this level of return.

Portfolio securities

- The Fund is a global fund insofar as its investments are not confined to or concentrated in any particular geographic region or market.
- The Fund's investments include, but are not limited to, shares of companies, bonds (which are loans that can pay a fixed or variable interest rate) issued by Governments, banks and international companies.
- The Fund may also invest in other Funds (including those managed by abrdn), money-market instruments, and cash.
- The Fund may have exposure to currencies other than the Base Currency of up to 100% of its Net Asset Value.

Cumulative and annualised performance (%)

	1 mth	3 mths	6 mths	Year to date	1 year	3 years (p.a.)	5 years (p.a.)	10 years (p.a.)	Since launch (p.a.)
Fund (NAV to NAV)	1.65	2.97	4.79	10.59	10.59	7.51	n/a	n/a	4.88
Fund (Charges Applied) [^]	-3.43	-2.17	-0.45	5.06	5.06	5.69	n/a	n/a	3.76
Benchmark	0.02	0.05	0.11	0.25	0.25	0.91	n/a	n/a	1.01

Performance Data: Share Class A MInc Hedged SGD Source: Lipper. Basis: Total Return, NAV to NAV, net of annual charges, gross Income reinvested, (SGD).

All return data includes investment management fees, performance fees, and operational charges and expenses, and assumes the reinvestment of all distributions, taking into account all charges which would have been payable upon such reinvestment.

[^]Includes the effect of initial sales charge and/ or capacity management charge i.e. an assumed 5% of the Gross Investment Amount. NAV to NAV figures are a better reflection of underlying investment performance. **Past performance is not a guide to future returns and future returns are not guaranteed.**

Benchmark history: Benchmark - Singapore Overnight Rate Average from 01/10/2021. 1 Month SIBOR (SGD) from 15/03/2017 to 30/09/2021

Management process

- The Fund is actively managed.
- The Fund's investment exposures and returns may differ significantly from the benchmark.
- Our investment team use their discretion to identify a diverse mix of investments which they believe are most appropriate for the Investment Objective. As a result of this diversification, and during extreme equity market falls, losses are expected to be below those of conventional global equity markets, with a volatility (a measure of the size of changes in the value of an investment) typically less than two thirds of equities.
- abrdn integrate environmental, social and governance (ESG) considerations within the investment process. Details of the Multi-Asset ESG Integration Approach are published at www.abrdn.com under "Sustainable Investing".

Cash	1.6

Risk and reward profile

This indicator reflects the volatility of the fund's share price over the last five years. See Key Investor Information Document (KIID) for details.

Key risks

- The value of investments and the income from them can fall and investors may get back less than the amount invested.
- The fund invests in equity and equity related securities. These are sensitive to variations in the stock markets which can be volatile and change substantially in short periods of time.
- The fund invests in securities which are subject to the risk that the issuer may default on interest or capital payments.
- The fund invests in emerging market equities and / or bonds. Investing in emerging markets involves a greater risk of loss than investing in more developed markets due to, among other factors, greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The fund invests in mortgage and asset-backed securities (which may include collateralised loan, debt or mortgage obligations (respectively CLOs, CDOs or CMOs)). These are subject to prepayment and extension risk and additional liquidity and default risk compared to other credit securities.
- The fund price can go up or down daily for a variety of reasons including changes in interest rates, inflation expectations or the perceived credit quality of individual countries or securities.
- Dividend payment policies of the REITs in which the fund invests are not representative of the dividend payment policy of the fund.
- The fund invests in high yielding bonds which carry a greater risk of default than those with lower yields.

 Singapore 049480

- (i) The use of derivatives carries the risk of reduced liquidity, substantial loss and increased volatility in adverse market conditions, such as a failure amongst market participants. The use of derivatives may result in the fund being leveraged (where market exposure and thus the potential for loss by the fund exceeds the amount it has invested) and in these market conditions the effect of leverage will be to magnify losses.
- (j) The shares of small and mid-cap companies may be less liquid and more volatile than those of larger companies.

Derivative usage

- The Fund may use investment techniques (including Derivatives) to seek to protect and enhance the value of the Fund and to manage the Fund's risks. Derivatives, such as futures, options and swaps, are linked to the rise and fall of other assets. In other words, they 'derive' their price from another asset. They can generate returns when share prices and/or indices fall.

A summary of investor rights can be found in English on our website - www.abrdn.com/legal-notice. To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the shareclasses within it, please refer to the Key Investor Information Documents, Product Highlights Sheet available in the local language, and Prospectus available in English, which are available on our website www.abrdn.com/singapore/investor. The Prospectus also contains a glossary of key terms used in this document. The Fund Management company may terminate arrangements for marketing the fund under the Cross-border Distribution Directive denotification process.

¹The Historic Yield as at 30/11/2021 reflects distributions declared over the past twelve months as a percentage of the mid-market share price, as at the date shown. It does not include any preliminary charge and investors may be subject to tax on their distributions.

²These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.

³The Ongoing Charge Figure (OCF), is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 1.20% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds.

Hedged share classes aim to reduce the effect of exchange rate movements between the Fund base currency and the currency of the share class. Where the share class is described as hedged, currency hedging techniques are used which will reduce, but not eliminate, exchange rate risk. In particular, the currency being hedged is not necessarily related to the currencies within the fund. Such techniques also give rise to additional risks and costs.

Important information: The fund is a sub-fund of Aberdeen Standard SICAV I, a Luxembourg-registered open-ended investment company with variable capital (organized as a société d'investissement à capital variable or SICAV) with UCITS status. Aberdeen Standard SICAV I, being the responsible person of the fund, has appointed abrdn Asia Limited ('abrdn Asia') as its Singapore representative.

The information in this document should not be considered as an offer, or solicitation, to deal in any funds. The information is provided on a general basis for information purposes only, and is not to be relied on as investment, legal, tax or other advice as it does not take into account the investment objectives, financial situation or particular needs of any specific investor. Investments in the fund are subject to investment risks, including the possible loss of the principal amount invested. Share values and income therefrom may fall or rise. Past performance is not necessarily indicative of future performance.

You should read the Singapore prospectus and the product highlights sheet before deciding whether to invest in shares of the fund. The Singapore prospectus is available and can be obtained from abrdn Asia or its website at www.abrdn.com/singapore/investor or any of its appointed distributors in Singapore. Advice should be sought from a financial adviser regarding the suitability of the fund before purchasing shares in the fund. In the event that you choose not to seek advice from a financial adviser, you should consider whether the fund is suitable for you.

The fund may use or invest in financial derivatives instruments. Please refer to the Singapore prospectus for more information. Dividend distributions are not guaranteed and may be subject to fluctuations. You should note that the fund may have a higher volatility due to their investment policies or portfolio management techniques.

The above is based on information available as at 31/12/2021, unless otherwise stated. Aberdeen Standard SICAV I reserves the right to make any amendments to the information at any time, without notice.
