## May 2022 Performance Data and Portfolio Composition

### Objective

The investment objective of the Fund is to outperform over the long term, on a total return basis (including appreciation and dividends), the Tokyo Stock Price Index ("TOPIX"), a composite market-capitalization weighted index of all common stocks listed on the First Section of the Tokyo Stock Exchange ("TSE").

### Performance

The latest available performance figures have been calculated net-of-fees in U.S. dollars for the period:

### Cumulative and annualised total return as of May 31, 2022 (%)

	1 month	3 months	Year to date	1 year	3 years (p.a.)	5 years (p.a.)	10 years (p.a.)	Since inception (p.a.)
NAV	-1.99	-14.24	-23.94	-23.26	2.36	0.60	7.22	1.83
Market Price	n/a*	-12.82	-23.11	-21.69	3.30	0.51	6.93	1.42
TOPIX Index (Net TR)	1.49	-8.32	-13.15	-13.71	4.27	2.95	6.93	n/a*

There is no since inception figure for the Tokyo Stock Price Index (Net) because the inception date of the Index is December 29, 2000.

Past Performance is no guarantee of future results. Investment returns and principal value will fluctuate and shares, when sold, may be worth more or less than original cost. Current performance may be lower or higher than the performance quoted. NAV return data includes investment management fees, custodial charges and administrative fees (such as Director and legal fees) and assumes the reinvestment of all distributions.

Effective February 28, 2020, the TOPIX (Net Dividends) replaced the TOPIX (Gross Dividends) as the Fund's primary benchmark.

The Fund is subject to investment risk, including the possible loss of principal. Returns for periods less than one year are not annualized.

**Important risk disclosure**

All performance shown is historical, assumes reinvestment of all dividends and capital gain distributions and does not guarantee future results. Investment return and principal value fluctuate with changing market conditions so when sold, shares may be worth more or less than that of the original cost. Total return based on market price reflects changes in market value. Total return based on net asset value reflects changes in the Fund's net asset value during each period. Current performance may be lower or higher than the performance data quoted. This commentary is for informational purposes only, and is not intended as an offer or recommendation with respect to the purchase or sale of any security, option, future or other derivatives in such securities.

Closed-end funds are traded on the secondary market through one of the stock exchanges. The Fund's investment return and principal value will fluctuate so that an investor's shares may be worth more or less than the original cost. Shares of closed-end funds may trade above (a premium) or below (a discount) the net asset value (NAV) of the Fund. The net asset value (NAV) is the value of an entity's assets less the value of its liabilities. The market price is the current price at which an asset can be bought or sold. There is no assurance that the Fund will achieve its investment objective. Past performance does not guarantee future results.

International investing entails special risk considerations, including currency fluctuations, lower liquidity, economic and political risks, and differences in accounting methods. Concentrating investments in the Japan region subjects the Fund to more volatility and greater risk of loss than geographically diverse funds. Equity stocks of small and mid-cap companies carry greater risk, and more volatility than equity stocks of larger, more established companies.

Please see the Fund's most recent annual report for more information on risks applicable to the Fund.
